SUBSTANTIVE POLICY STATEMENT #11**

Deadline for Submission of Materials Prior to a Board Meeting

The Arizona Medical Board (Board) notifies licensees that their matters will be appearing on a Board agenda well in advance of the scheduled Board meeting. In cases regarding pending investigations licensees are given multiple opportunities throughout the entire investigation to submit materials to the Board. However, the Board is flooded with large amounts of additional information within hours of the Board meeting. The late submission of this material makes it difficult for the Board to give it due consideration and often prevents Board Staff, including medical consultants, from opining on the material. In order to prevent the submission of late materials Board Staff will not accept materials submitted less than three weeks prior to a Board Meeting. A physician may file a Motion for Good Cause highlighting the importance of any materials the physician wishes to submit after this deadline and how the material may change the Board's analysis of the matter and why the material was not previously submitted. Failure to timely retain legal counsel is not good cause for late submission of materials.
