

To All Arizona Licensed Physician Assistants:

Today, Representative Barto proposed an amendment to House Bill (HB) 2075 which, if adopted, will restore the ability of PAs to prescribe for more than the 72 hours currently in statute. If signed into law, the bill provides an emergency clause making it immediately effective.

Tomorrow at 9:00 am, the House Health and Human Services Committee will hear the amendment. We attached a link to the amendment here:
